ABOUT

You're looking at the CV of someone who

is "always eager to learn new skills, has the startup-mentality of digging in wherever help is needed (even if she's never tried it before), and brings the energy of a self-reliant freelancer into every project she takes on. A true asset to every team, I give Ellinor my greatest endorsements."

- Linda Augustin, co-founder & Senior Partner
AW Executive Search.

I am currently looking for

an internship week 7-21 spring 2022, where I can learn from experienced UX designers and further practice all the theoretic knowledge my education has provided. Right now, I'm extra interested in becoming great at information architecture and UX writing.

My UX comfort zone include

Design Thinking, UX research (qualitative and quantitative methods, thematic analysis), workshops, user journeys, impact mapping, user testing and more.

Proficient in

Figma, Miro, Sketch, Visual Studio Code, Balsamic etc and open to learning many more.

Other areas I know things about are

frontend development (HTML, CSS, JS) and the music industry (i. a live production, publishing and rights management).

I speak

native Swedish, fluent English, basic French and beginner Mandarin.

If you run into me at the coffee machine, I'd love to talk about

music, language, yoga or interior design!

EXPERIENCE

UX-design education

Nackademin, 2020-2022

UX Internship

PriceRunner, 2021

Nine week project focused on evaluating and testing their current internal system. The project resulted in a thorough report and well-received suggestions for future development of the service.

Project Management & Product Development

Epidemic Sound, 2015-2017

Hired as team lead, I was responsible for the creative departments budget and production. Since we provided all content for the platform, I also worked in close collaboration with the IT department in product development projects, to make sure the users could get the best experience out of our content.

Project Management & Product Development

Mavshack, 2014-2015

Hired as CEO/Executive trainee at this mediatech start-up, among other projects, I was highly involved in setting requirements and working alongside a web design agency for a complete makeover of the company's main product.

Freelance

2016-present

I run my own business in the music industry which have made me autonomous, flexible and used to collaborating creatively with new people in new teams every project.
